

Book review - The Brotherhood of the Shield The Three Thorns.

I thoroughly enjoyed this book because it always kept me on the edge of my seat. The reason for that is because there was a lot of action and danger early on in the story. I also loved the magical aspect of the story because I read a lot of books with magic and different dimensions in them. I sometimes got confused as to which dimension I was in.

I loved the fact that I felt like I was in the story and stood next to the characters. The story was a little confusing as there were so many characters in it and they were quite hard to keep track of.

I think that the best bit of the story was at the end where Benjamin realises he's got a family and he's not just any old orphan. I also loved it when Jado Kahlin and his warriors stormed the stained castle in an attempt to become ruler.

I highly recommend this book to anyone between the age range of 9-12. It's one of the best books I have ever read. I rate this book 9/10 because I got a bit lost sometimes but overall this book is AWESOME! 😊
